

When I arrived, everyone was waiting for me so that we could go sight in our guns. There was no one in the group that was my age, but it did not take long for me to fit in. Everyone made me feel very comfortable. There were a few guys from Pennsylvania, New Hampshire, and Maine. Everyone was nice and we all had a great time together.

The food was amazing. We had lot to eat, you will not go hungry. There were lots of talking and stories to be told at mealtime and around the campfire.

During the week, I saw a few rabbits, one fox, and a mink. I heard lots of coyotes. That was until Friday (my last day of hunting) I was sitting in my blind, when out of nowhere a bear walks by perfectly silent. I watched as it stood up on its back legs and walked into the woods three times. The last time it walked into the woods I thought I was going home empty handed. Then it walked out one last time. I put the crosshairs on its shoulder and slowly pulled the trigger. Perfect shot, I came home with a 123-pound female bear.

It was great to get to shoot a bear, but I did not care if I shot one or not. Just being around awesome people was the best. I had the best time of my life. It was definitely the hunt of a lifetime. You can be sure that I will go back again to do another hunt. The guides did their homework. They put me in a great site and they are very knowledgeable. I do not know how to thank them.

I would highly recommend going on this bear hunt with the guide and guide service.

Sincerely,

Chris Folsom
